To: MassDevelopment / Devens Utility Customers:

From: Richard A. Montuori, EVP Devens Operations

RE: FY10 Rate Increases

The purpose of this correspondence is to communicate to you the utility rates that have been set for our Fiscal Year 2010 which began on July 1, 2009.

We are not anticipating any increase in the gas or electric rates for the first quarter which runs from July 1, 2009 – September 30, 2009. The water and wastewater rates have both been raised 4% each in order to pay for increased Operation and Maintenance costs and to offset the costs for system improvements that are being accomplished.

The MassDevelopment / Devens Utilities will continue to provide safe and reliable energy services to our Devens customers and strive to set rates that are competitive with the New England energy market.
