FIRST MILE/LAST MILE TO DEVENS INITIATIVE

Work continues on a shuttle service to link Devens businesses and residents with the Fitchburg Line commuter rail in order to foster continued economic growth and development in the Devens region. We are working with MART and our business community in order to have the service operational sometime in the first quarter of 2017. A second element of this initiative is integrating an employee bus service from Fitchburg and Leominster to our businesses.
