

**Devens Public Water System
PWS ID # 2019001**

Our Public Water System has no Lead, Galvanized Requiring Replacement (GRR) or Unknown Service Lines

On October 4, 2024, the Devens Utilities Department submitted to MassDEP a non-lead service line certification, indicating that the Devens water system has no known service lines of Lead, Galvanized Requiring Replacement (GRR) or unknown materials. This statement is based on the results of a service line inventory that was developed using the following verification method(s):

- Field Inspection by PWS
- Records Review
- Statistical Analysis
- Customer Self-Identification
- Sequential Monitoring
- Other(s) MassDEP-Approved Method(s):

Disclaimer: This statement is based on the initial service line inventory for our system as required by the Environmental Protection Agency (EPA) under the Lead and Copper Rule Revisions. This statement does not take into consideration the presence of unknown or lead service line connectors. A gooseneck/pigtail/connector is defined as a piece of pipe typically not exceeding two feet in length that connects the water main to the service line or the service line to the water meter of a building.

For information on all service lines in the Devens water system contact Mark Cohen in the Devens Utilities Department at 978-784-2911 or mcohen@massdevelopment.com.
